

StitchPerfect

REVOLUTIONIZING TAILOR SHOPS

Problem Statement Title:

Enhancing Tailor Shop Efficiency through Digital Management and Automation

Name: Uday Singh

Roll No.: 1024160031

Smart Automation for Tailors

Digitize Orders • Precision Measurements • Faster Deliveries • Data-Driven Growth

01

Q1. Why is this solution needed?

Local tailors rely on manual processes — causing measurement mistakes, long turnarounds, and lost sales. StitchPerfect digitizes orders, standardizes measurements, and gives real-time visibility to staff and customers.

02

How will our solution solve these problems?

By digitizing measurement, automating order workflow, and providing customer tracking + analytics, StitchPerfect reduces rework, shortens lead-times, and increases shop revenue.

03

How will our solution impact the ecosystem?

Result: fewer errors, faster deliveries, improved margins, and a scalable digital platform enabling boutique & chain-level growth.

04

What sets StitchPerfect apart?

Tailor-first design with measurement digitization, media-based order proofs, and actionable analytics — built specifically for tailors and boutiques.

What We Offer

Order Management & Workflow

Digital order intake, task cards, and status tracking through the full stitching pipeline.

Inventory & Material Tracking

Real-time fabric and material stock control linked to active orders.

Media Management (Cloudinary)

Photo-based proof-of-work, style references, and design previews stored in the cloud.

Customer Communication & Payments

Automated updates, reminders, and integrated payment collection.

Who Benefits

Tailors & Stitching Staff

- Simpler daily queues, clear task cards, fewer corrections
- Saved measurement profiles for returning customers
- Faster onboarding for new staff

Shops & Owners

- Visibility to all orders, costs, profitability per garment
- Inventory control & supplier integration
- Scalable to multiple outlets

Customers

- Order tracking, preview images, fewer fittings
- Trusted proof-of-work
- Faster delivery and easier reorders

Suppliers & Vendors

- Electronic POs, lead-time tracking
- Demand forecasts from analytics

Investors / Business Partners

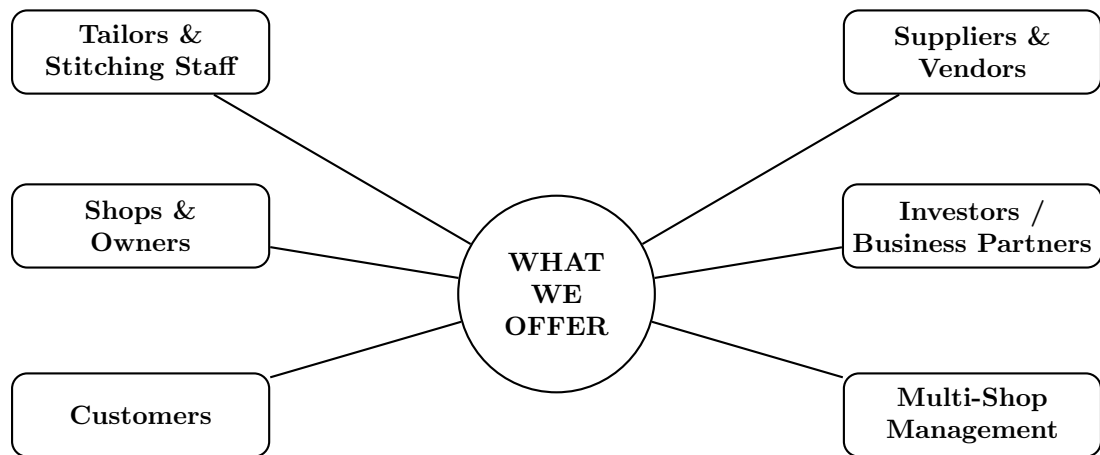

- Monetization metrics, growth projections
- Low CAC via shop partnerships

Multi-Shop Management

- Multi-shop management & role-based access

Maximizing Potential, Simplifying Journeys...

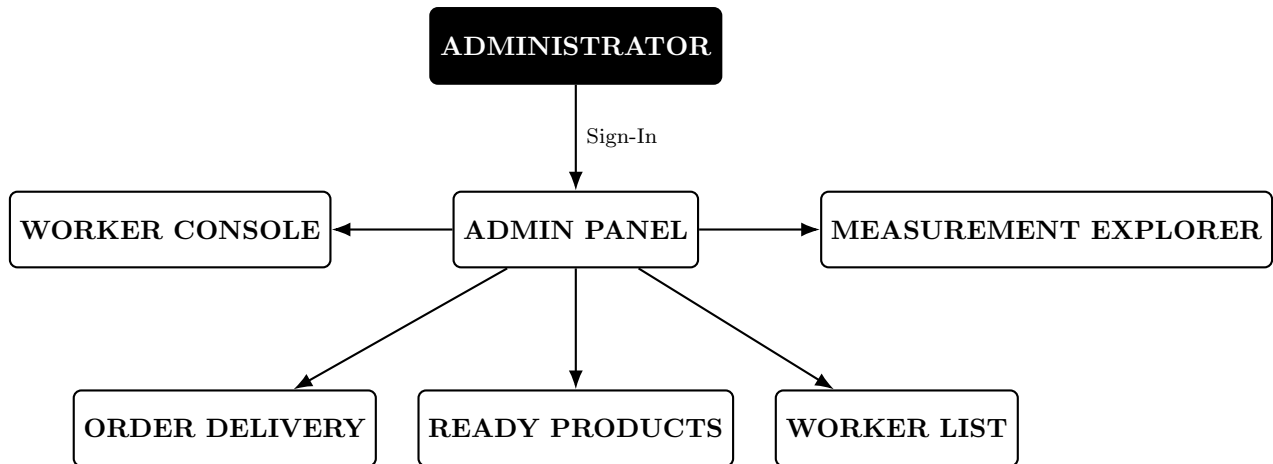

Ecosystem Map

This ecosystem places the StitchPerfect platform at the center, connecting tailoring staff, shop owners, and customers on one side with suppliers, investors, and multi-shop operators on the other — unifying the entire tailoring value chain into a single digital system.

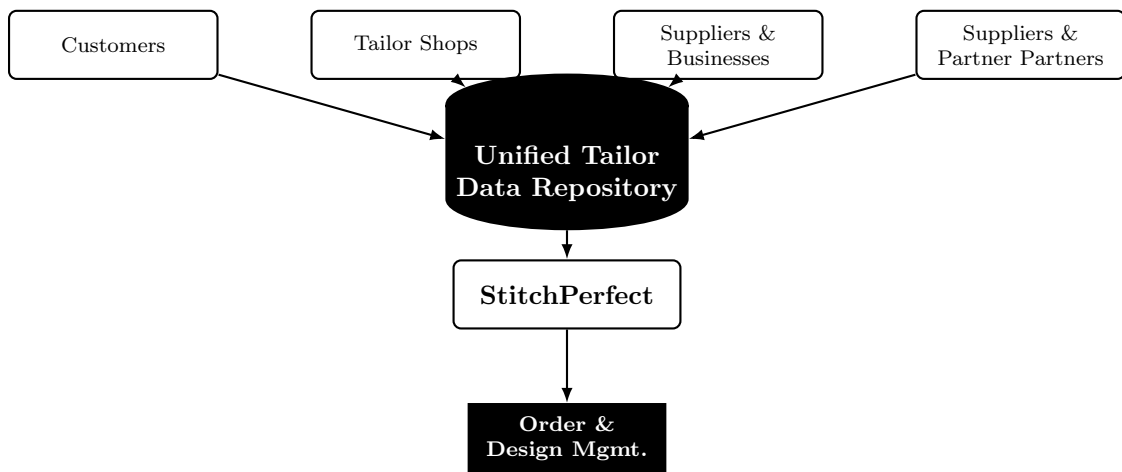

Technical Approach

Implementation Flowchart

The administrator signs in to a central Admin Panel that branches out into the Worker Console and Measurement Explorer, and further down into Order Delivery, Ready Products, and the Worker List — giving full operational control over daily shop activity.
